We are not categorized as a “shell company” as that term is defined in Reg. 405 of the Act. A “shell company” is a corporation with no or nominal assets or its assets consist solely of cash, and no or nominal operations

On February 17, 2017, we had 1,995,840,000 shares of common stock outstanding; 7,500,000 shares of Series A Preferred Stock outstanding with each Series A Preferred share having 20 votes; 162,028,779 shares of Series B Preferred Stock outstanding with each Series B Preferred share having 1,000 votes per share 1,000 shares of Series C Preferred Stock outstanding with the holders of the Series C as a single class entitled to vote the equivalent of 51% of all shares entitled to vote. ## REVERSE STOCK SPLIT

On February 17, 2017, our board of directors and our principal stockholders holding a majority of our voting power approved a reverse stock split of our issued and outstanding shares of common and preferred stock, on a one (1) share for one thousand (1,000) shares basis. The effective date of the split was approved by the board of directors February 17, 2017 to take effect upon approval of the reverse by FINRA.

All shares of our common stock have equal rights and privileges with respect to voting, liquidation and dividend rights. Each share entitles the holder thereof to (i) one non-cumulative vote for each share held of record on all matters submitted to a vote of the stockholders; (ii) to participate equally and to receive any and all such dividends as may be declared by the board of directors; and (iii) to participate pro rata in any distribution of assets available for distribution upon liquidation. Holders of our common stock have no preemptive rights to acquire additional shares of common stock or any other securities. The common stock is not subject to redemption and carries no subscription or conversion rights.

### Amendment to Articles of Incorporation

In connection with the Reverse Stock Split, which filed, we will have as a result of the split, 1,995,840 shares of common stock outstanding; 7,500 shares of Series A Preferred Stock outstanding with each Series A Preferred share having 20 votes; 162,029 shares of Series B Preferred Stock outstanding with each Series B Preferred share having 1,000 votes per share, 1 share of Series C Preferred Stock outstanding with the holders of the Series C as a single class entitled to vote the equivalent of 51% of all shares entitled to vote. The total voting power of the outstanding common and preferred stock will be 332,816,818 votes. 166,408,409 votes will be required to pass each resolution described above. Our shares of common stock vote with our preferred stock as a single class on all matters submitted to our shareholders.

Under applicable Nevada law, a corporation may effect a reverse stock split without correspondingly decreasing the number of authorized shares of the same class or series if:

- (a) The board of directors adopts a resolution setting forth the proposal to decrease the number of issued and outstanding shares of a class or series; and
- (b) The proposal is approved by the vote of stockholders holding a majority of the voting power of the outstanding shares of the affected class or series.

As our board of directors has approved the Reverse Stock Split and stockholders holding a majority of our outstanding shares of common stock have also approved the split by written consent, we are not required to change our authorized capitalization. Accordingly, our amendment to our articles of incorporation reflects that our outstanding shares have been reverse split, but that our capitalization will be unchanged. Upon the effectiveness of the split, each share of our issued and outstanding common stock will be reverse split on a one (1) share for (1.000) shares basis. Stockholders who would otherwise be entitled to receive fractional shares, because they hold a number of shares of common stock that is not evenly divided by the split ratio, will have the number of new shares to which they are entitled rounded up to the next whole number of shares. No stockholders will receive cash in lieu of fractional shares.

## Effect of the Reverse Stock Split

Split shares of common stock issued in connection with the Reverse Stock Split will be fully paid and non-assessable. The number of stockholders will remain unchanged as a result of the Reverse Stock Split. The Reverse Stock Split will decrease the number of outstanding common shares but will not affect any stockholder's proportionate interest in our company prior to the closing of the Share Exchange, except for minor differences resulting from the rounding up of fractional shares. The par value of our common stock will remain unchanged at \$0.001. While the aggregate par value of our outstanding common stock will be decreased, our additional paid-in capital will be increased by a corresponding amount. Therefore, the Reverse Stock Split will not affect our total stockholders' equity. All share and per share information will be retroactively adjusted to reflect the split for all periods presented in our future financial reports and regulatory filings.

Although it is generally expected that a reverse split will result in a proportionate increase in the market price of the split shares, there can be no assurance that our common stock will trade at a multiple of our current price, or that any price increase will occur or be sustained. If the market price of our stock declines after the implementation of the Reverse Stock Split, the percentage decline as an absolute number and as a percentage of our overall market capitalization would be greater than would be the case in the absence of the reverse split.

Furthermore, the possibility exists that the reduction in the number of outstanding shares will adversely affect the market for our common stock by reducing the relative level of liquidity. In addition, the Reverse Stock Split may increase the number of the stockholders who own odd lots, or less than 100 shares. Stockholders who hold odd lots typically will experience an increase in the cost of selling their shares, as well as possible greater difficulty in effecting such sales. Consequently, there can be no assurance that the Reverse Stock Split will achieve the desired results outlined above.

Following the Reverse Stock Split, we will have issued and outstanding approximately 1,995,840 shares of common stock outstanding; 7,500 shares of Series A Preferred Stock outstanding with each Series A Preferred share having 20 votes; 162,029 shares of Series B Preferred Stock outstanding with each Series B Preferred share having 1,000 votes per share, 1 share of Series C Preferred Stock outstanding with the holders of the Series C as a single class entitled to vote the equivalent of 51% of all shares entitled to vote. The total voting power of the outstanding common and preferred stock will be 332,816,818 votes. 166,408,409, votes will be required to pass each resolution described above. Our shares of common stock vote with our preferred stock as a single class on all matters submitted to our shareholders, without giving effect to the rounding up of fractional shares.

We will not become a private company as a result of the reverse split, we expect that our common stock will continue to be quoted on the OTC Markets, Inc. - PINK and we plan to continue to file periodic and other reports with the SEC under the Exchange Act.

Following the Reverse Stock Split, the share certificates you now hold will be replaced with new certificates. You are not required to exchange your certificates for new certificates. The old certificates now in your possession will be cancelled. In the future, new share certificates will be issued reflecting the stock split, but this in no way will affect the validity of your current share certificates. The reverse split will occur on the effective date without any further action on the part of our stockholders. After the effective date of the reverse split, each share certificate representing shares of pre-split common stock will be deemed to represent 1/1,000<sup>th</sup> shares of post-split ECOS common stock. Certificates representing post-split common stock will be issued in due course by our transfer agent: Action Stock Transfer Corporation, 2469 Fort Union Blvd., Suite 214, Salt Lake City, Utah 84121. Its telephone number is (801) 274-1088.

**We request that stockholders do not send in any of their stock certificates at this time.**

As applicable, new share certificates evidencing post-split shares that are issued in exchange for old pre-split certificates representing restricted shares, will contain the same restrictive legend as on the old certificates. Also, for purposes of determining the term of the restrictive period applicable to the new post-split shares, the time period during which a stockholder has held their existing pre-split shares will be included in the total holding period.

#### **Accounting Matters**

The par value per share of the common stock will remain unchanged after the Reverse Stock Split. As a result, on the effective date of the Reverse Stock Split, the stated capital on the balance sheet attributable to the common stock will be reduced proportionally, based on the exchange ratio of the Reverse Stock Split, from its present amount, and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. The per share common stock net income or loss and net book value will be increased because there will be fewer shares of the common stock outstanding. The company does not anticipate that any other accounting consequences would arise as a result of the Reverse Stock Split.

#### **No Appraisal Rights**

Under Nevada Corporations Law, stockholders are not entitled to appraisal rights with respect to the proposed Reverse Stock Split and amendment to our articles of incorporation.

#### **United States Federal Income Tax Consequences of the Reverse Stock Split**

The following is a summary of certain material U.S. federal income tax consequences of the Reverse Stock Split to a stockholder (hereinafter a “*U.S. stockholder*”) that is a “United States person,” as defined in the Internal Revenue Code of 1986, as amended (the “*Code*”). This summary is not intended to be a complete discussion of all possible U.S. federal income tax consequences of the Reverse Stock Split and is included for general information purposes only. Further, it does not address any state, local or foreign income or other tax consequences. For example, state and local tax consequences of the Reverse Stock Split may vary significantly as to each U.S. stockholder, depending upon the state in which such stockholder resides or does business. Also, it does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. In addition, the discussion does not consider the tax treatment of partnerships or other pass-through entities or persons who hold our shares through such entities.

The discussion below is based on the provisions of the U.S. federal income tax law as of the date hereof, which are subject to change retroactively as well as prospectively. This summary also assumes that the shares held by a U.S. stockholder prior to the Reverse Stock Split (“*Old Shares*”) were, and the shares owned by such stockholder immediately after the Reverse Stock Split (“*New Shares*”) will be, held as “capital assets,” as defined in the Code, generally property held for investment. The tax treatment of a stockholder may vary depending upon the particular facts and circumstances of such stockholder. The discussion below regarding the U.S. federal income tax consequences of the Reverse Stock Split also is not binding on the Internal Revenue Service or the courts. Accordingly, each stockholder is urged to consult with his, her or its own tax advisor with respect to the tax consequences of the Reverse Stock Split.

No gain or loss should be recognized by a U.S. stockholder upon such stockholder’s exchange, or deemed exchange, of Old Shares for New Shares pursuant to the Reverse Stock Split. The aggregate tax basis and holding period of the New Shares received in the Reverse Stock Split should be the same as such stockholder’s aggregate tax basis and holding period in the Old Shares being exchanged. Special tax basis and holding period rules may apply to holders that acquired different blocks of stock at different prices or at different times. Holders should consult their own tax advisors as to the applicability of these special rules to their particular circumstances.

We are hereby notifying our stockholders of the approval of the Reverse Stock Split and, pursuant to the Exchange Act, filing this Information Statement on Schedule 14C, which will be mailed to all stockholders of record as of the record date established therefore.

**THE PROPOSAL TO DECREASE THE AUTHORIZED SHARES OF COMMON STOCK**

Our Board of Directors has approved, subject to stockholders' approval, an amendment to our Articles of Incorporation to decrease the number of authorized shares of common stock from two billion (2,000,000,000) shares to one hundred million (100,000,000) shares, par value \$0.001 per shares, par value \$0.001 per share, A copy of the amendment is attached hereto as Appendix A.

**Reason for the Amendment**

We are currently authorized to issue 2,000,000,000 shares of common stock with a par value of \$0.001 per share. Currently, there are 1,995,840,000 shares of common stock issued and outstanding. Afer the 1,000 to 1 reverse, the number decreases approximately to 1,995,840 shares of common stock. We believe that a company with our size, does not need to have that many shares authorized or issued. A summary of the outstanding promissory notes is as follows:

***OUTSTANDING PROMISSORY NOTES***

<b>Lender</b>	<b>Amount Owed</b>	<b>Number of Common Shares Issuable Upon Conversion of the Entire Amount</b>
Iconic Holdings, LLC	\$ 100,000	1,000,000
HGT Capital, LLC (1)	\$ 50,000	5,000,000
SirenGPS	\$ 60,000	375,000
ViaOne Managed Service, LLC	\$ 300,000	0
Silver Linings Management, LLC (2)	\$ 13,440	67,200
<b>TOTAL</b>	<b>\$ 546,440</b>	<b>6,442,200</b>

(1) HGT Capital, LLC is in litigation with the Company. The Company disputes any shares upon conversion of the \$50,000 debt.

(2) Silver Lining Management, LLC is controlled by David Dorwart our director which has a right to 10% interest, and covertrs to common stock at \$0.02 per share - after the reverse.

More generally, the decrease in the authorized number of shares of common stock will enable us to engage in possible future financings on better terms.

After the decrease in the authorized number of shares of common stock, there will be available for issuance approximately, 98,004,160 shares of common stock and 2,080,470 shares of preferred stock. The par value of our common stock will remain \$0.001 share. The relative rights and limitations of the shares of common stock would remain unchanged under the decrease in authorized shares of common stock. Our shares of common stock vote with our preferred stock as a single class on all matters submitted to our shareholders.

#### **Certain Effects of the Amendment**

The decrease in authorized shares of common stock is not being proposed as a means of preventing or dissuading a change in control or takeover of us. However, use of these shares for such a purpose is possible. Authorized but unissued or unreserved common stock, for example, could be issued in an effort to dilute the stock ownership and voting power of persons seeking to obtain control of us or could be issued to purchasers who would support the Board of Directors in opposing a takeover proposal. In addition, the increase in authorized shares of common stock, if approved, may have the effect of discouraging a challenge for control or make it less likely that such a challenge, if attempted, would be successful. The Board of Directors and our executive officers have no knowledge of any current effort to obtain control of us or to accumulate large amounts of shares of our common stock.

The holders of shares of our Common are not entitled to preemptive rights with respect to the issuance of additional shares of Common or securities convertible into or exercisable for shares of Common Stock.

The proposed amendment to the Articles of Incorporation does not change the terms of the Common Stock. The reduced shares of Common Stock for which authorization is sought will have the same voting rights, the same rights to dividends and distributions and will be identical in all other respects to the Common Stock now authorized. Our shares of common stock votes with our classes of preferred stock as a single class on all matters submitted to our shareholders.

## THE PROPOSAL TO INCREASE THE AUTHORIZED SHARES OF PREFERRED STOCK

Our Board of Directors has approved, subject to stockholders' approval, an amendment to our Articles of Incorporation to decrease the number of authorized shares of preferred stock from four hundred fifty million (450,000,000) shares to two million two hundred fifty thousand (2,250,000) shares, par value \$0.001 per share. A copy of the amendment is attached hereto as Appendix A.

### Reason for the Amendment

We are currently authorized to issue 450,000,000 shares of common stock with a par value of \$0.001 per share. Currently there are 169,529,779 shares of preferred stock issued and outstanding. After the 1,000 to 1 reverse, the number decreases approximately to 169,530 shares of preferred stock. We believe that a company with our size, does not need to have that many shares authorized or issued. :

More generally, the decrease in the authorized number of shares of preferred stock will enable us to engage in possible future financings.

After the decrease in the authorized number of shares of preferred, there will be available for issuance approximately, 2,080,470 shares of preferred stock. The par value of our preferred stock will remain \$0.001 share. The relative rights and limitations of the shares of preferred stock would remain unchanged under the decrease in authorized shares of preferred stock. Our shares of preferred stock vote as a single class on all matters submitted to our shareholders.

### Certain Effects of the Amendment

The decrease in authorized shares of preferred stock is not being proposed as a means of preventing or dissuading a change in control or takeover of us. However, use of these shares for such a purpose is possible. Authorized but unissued or unreserved preferred stock, for example, could be issued in an effort to dilute the stock ownership and voting power of persons seeking to obtain control of us or could be issued to purchasers who would support the Board of Directors in opposing a takeover proposal. In addition, the increase in authorized shares of common stock, if approved, may have the effect of discouraging a challenge for control or make it less likely that such a challenge, if attempted, would be successful. The Board of Directors and our executive officers have no knowledge of any current effort to obtain control of us or to accumulate large amounts of shares of our common stock.

The holders of shares of our Preferred Stock are not entitled to preemptive rights with respect to the issuance of additional shares of Preferred Stock or securities convertible into or exercisable for shares of Common Stock.

The proposed amendment to the Articles of Incorporation does not change the terms of the Preferred Stock. The reduced shares of Preferred Stock for which authorization is sought will have the same voting rights, the same rights to dividends and distributions and will be identical in all other respects to the Preferred Stock now authorized.

Our shares of common stock votes with our classes of preferred stock as a single class on all matters submitted to our shareholders.

No distribution shall be made to the holders of the Common Shares upon liquidation, dissolution, or winding up until after the full amount of the Liquidation Preference has been distributed or provided to the holders of the Preferred Shares.

ii. If, upon such liquidation, dissolution or winding up the assets thus distributed among the Preferred Shareholders shall be insufficient to permit payment to such shareholders of the full amount of the Liquidation Preference, the entire assets of the Corporation shall be distributed ratably among the holders of all classes of Preferred Shares.

iii. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Corporation, when the Corporation has completed distribution of the full Liquidating Preference to the holders of the Class B Preferred Shares, the Class B Preferred Shares shall be considered to have been redeemed, and thereafter, the remaining assets of the Corporation shall be paid in equal amounts on all outstanding shares of Common Stock.

i. If the number of outstanding shares of Common Stock has been decreased since the initial issuance of the Class B Preferred Shares (or series having conversion rights (by reason of any split, stock dividend, merger, consolidation or other capital change or reorganization affecting the number of outstanding shares of Common Stock), the number of shares of Common Stock to be issued on conversion to the holders of Class B Preferred Shares shall not be adjusted unless by appropriate amendment of this article. ii. Shares converted under this article shall not be reissued. The foregoing provisions in this Section 5.5(c), are subject to any limitations imposed by statute or applicable law. In the event of a vacancy on the Board of Directors created by the resignation, death or removal of the Series C Director, such vacancy shall be filled exclusively: (i) by the Corporation's Board of Directors upon receipt by the Board of Directors of, and in accordance with, written consents specifying the new director to fill such vacancy and signed by the holders of a majority of the shares of the Series C Preferred Stock then outstanding, voting as a separate series, or (ii) by vote or written consent of the holders of a majority of the Series C Preferred Stock then outstanding, voting as a separate series.

**ARTICLE 6.**

**No Further Assessments**

6.1 The capital stock, after the amount of the subscription price determined by the board of directors has been paid in money, property, or services, as the Directors shall determine, shall be subject to no further assessment to pay the debts of the Corporation, and no stock issued as fully paid up shall ever be assessable or assessed, and these Articles of Incorporation shall not and cannot be amended, regardless of the vote therefore, so as to amend, modify or rescind this Article 6.
